

Nurse Practitioner/Advanced Clinical Nurse

The **Department of Dermatology at University Hospitals Case Medical Center** is looking for a **Nurse Practitioner and an Advanced Clinical Nurse** to become a part of the **Murdough Family Center for Psoriasis** in Cleveland, Ohio. The Center's goal is to provide leadership in creating and translating advances in psoriasis research to patient care.

Duties will include:

- Traveling to Dermatology offices included in the large network of physicians who care for patients with psoriasis
- Performing physical examinations, biopsies and blood draws, as well as administering patient questionnaires and entering the information gathered into a research database
- Assisting physicians with developing appropriate management and treatment plans
- Educating patients and family members about their disease in addition to providing them with psychosocial support
- Coordinating clinical trials at several Dermatology offices

Experience: 3-5 years experience in managing and treating patients with chronic disease, preferably dermatologic experience, mental health nursing or research.

Requirements: Registered Nurse and/or Certified Nurse Practitioner
